Executive Summary

Front-end developer and network engineer with hands-on experience in **web development, data analysis, and network troubleshooting**. Skilled in building responsive user interfaces using **HTML5, CSS3, JavaScript, React**, and integrating back-end technologies. Strong foundation in **Python full stack development**, IoT projects, and customer-focused technical support. Adept at problem-solving, collaboration, and delivering reliable solutions in fast-paced environments.

Technical Skills

- **Frontend:** HTML5, CSS3, JavaScript (ES6, DOM Manipulation), React, jQuery, Bootstrap
 - **Backend & Databases:** Python, Django/Flask (intro), SQL, MongoDB
 - **Tools:** Git/GitHub, CRM Systems
 - **Networking:** LAN/WAN, Routing, Switching, Troubleshooting (L1/L2 support)
 - **Other:** Responsive Web Design, IoT (ESP32, Arduino), Data Analysis
-

Professional Experience

Movate Technologies Pvt Ltd — Network Engineer
May 2025 – Nov 2025 | Chennai

- Diagnosed and resolved **L1 & L2 network issues**, minimizing downtime and ensuring smooth operations.
- Provided advanced support for **routing, switching, LAN/WAN technologies**, and escalated complex cases to L3 teams.
- Documented troubleshooting steps in CRM systems for transparency and knowledge sharing.
- Delivered clear communication to customers, ensuring satisfaction and timely resolution.

Stat Perform — Data Analyst (Part-time)

Aug 2022 – Mar 2025 | Chennai

- Collected and transformed **real-time sports data** during live matches with high accuracy.
 - Encoded sports events (scores, statistics, key actions) into structured datasets for analytics teams.
 - Supported downstream products by ensuring **data integrity and consistency**.
-

Projects

Swiggy -Style Responsive Frontend Interface

(<https://deepakmuthukamachi21.github.io/Swiggy-Replica/>)

- Built a responsive web interface using **HTML5, CSS3, Vanilla JS**.
- Designed UI components (navigation bar, restaurant cards, search filters, menus).
- Implemented **Flexbox & Grid** for cross-device compatibility.
- Optimized performance with efficient asset loading and DOM manipulation.

IoT Home Automation System (ESP32 & Arduino)

- Developed a smart home system to control appliances via Wi-Fi.
 - Programmed ESP32 microcontroller for **TCP/IP communication** with Arduino app.
 - Integrated relay modules for switching electrical loads (lights, fans).
 - Applied **embedded programming and hardware-software interfacing** principles.
-

Education & Certifications

- **B.Sc. Computer Science** — Patrician College of Arts & Science (Apr 2022 – May 2025)
 - **Python Full Stack Development** — Pumo Technovation
 - **Web Development Course** — Patrician College with TEENOFES
 - **English Communication Course** — Wadhvani Foundation
-

Soft Skills

- Communication & Presentation
 - Problem-Solving & Time Management
 - Leadership & Adaptability
 - Project Implementation
-
